**Subject:** I like Fish Furniture

I have always recommended Fish Furniture to my friends because I thought they had above average quality merchandise at reasonable prices. I have purchased several items there and always have been pleased by their service too. My most recent purchase was a lovely sofa for my living room which was ordered with my choice of fabric and made just for me. After taking delivery of the sofa, I noticed a cut in the fabric and unfortunately when the sofa had been unpacked a box cutter penetrated the fabric. When I called the store Kitty took care of me right away and I was very pleased. There was no hassle, no problem at all and she did what it took to make me happy. She offered to replace the sofa and/or repair it at my convenience. Within three days of delivery the matter was settled to my complete satisfaction. I will continue to recommend Fish Furniture because now I know it's really not necessary to shop anywhere else.
