Dear Dan:

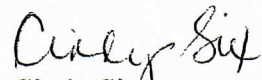

Thank you so much for all of your help with our sofa dilemma. We truly appreciate your coming to our home and all of your efforts on our behalf. It is not often that the owner of a furniture store will take the time to talk with a customer let alone come to their home.

We wanted to acknowledge the wonderful job done by Lauren Roncagli. What a very knowledgeable and patient interior designer you have working for you! She has always been so professional in our visits, yet she has the ability to make us feel right at home when she sees us walk into your store. Regardless of the sale, Lauren has the ability to make us feel like we are her best customers. She truly is a gem.

Both of us have told everyone about your great store and how very helpful you have been to us. We look forward to continue being customers of Fish Furniture and Lauren.

Both Dick and I thank you again, Dan.

Sincerely,

Cindy Six
