Hi Dan

Wanted to pass a review I posted about Fish on the following link:  
<http://www.insiderpages.com/b/3719932967/fish-furniture-cleveland>

Thanks again for your help.

“My wife and I have bought a lot of items from Fish Furniture over the years, and recently had a small issue with the stitching on a chair coming loose. I called, and the owner was more than willing to take care of it. The company is always honest and straightforward to deal with, and I do comparison shop their prices and they are always very, very reasonable. Great service at a fair price.

I did buy one bedroom set years ago from a "discount" chain for my daughters bedroom. The white thermofoil coating is peeling off and the set looks terrible. The owner of that company said "it is a kids bedroom set, what do you expect?"!

You certainly get what you pay for. I will stick with Fish as they have always been great to deal with.”

Thanks and may the New Year bring continued success to you and your family.

Al Noe
