Good morning Dan:

Recently we purchased bedroom furniture for our daughter at Fish Furniture. We had looked at many other places before coming to Fish. When we arrived we were greeted and taken care of by Chuck. He was professional, knowledgeable but best of all he did not push us into making any decisions. He let us have our space to decide what furniture would work best for us but was always courteous and available to answer any questions that we had. I thought the value for the furniture was exceptional. He told us the furniture would be available for delivery in about 3 - 4 weeks and that is exactly the time frame that it fell into. Our delivery was set up for a Saturday and the delivery men (Tim and Dave) were outstanding. They called about 30 minutes prior to arriving. They also were extremely professional and helpful. They set the furniture up in no time and they were extremely personable.

I could not have asked for a better experience for all aspects of purchasing the furniture. We will definitely be back in the future when we have more furniture needs. Thank you and your team of dedicated personnel for a wonderful shopping, buying and delivery experience.
